April 22, 1999 LB 822

So I think that sometimes we need that little boost to get them working. They will...I don't believe that it will take that long for them to do, actually, the temporary zoning if they're going to look at five other counties and pull from there their date. So I also feel most of those counties, I believe 27 of those counties, already in the process and do have some comprehensive plans. So we're not looking at a large number that have a great, great deal of work to do, so I do rise in support of the Kremer amendment. Thank you.

PRESIDENT MAURSTAD: Thank you, Senator Stuhr. Senator Cudaback, on the Kremer amendment to the Schimek amendment to LB 822.

SENATOR CUDABACK: Mr. President, members, there's an old saying that says you can't have your cake and eat it too. That applies to this situation here. My very good friend, Senator Schimek, and I, we agree. We absolutely agree on this issue. She just made the statement that she wants to encourage zoning. I want to encourage it. I want to encourage it. How do you encourage something to happen? Do you go out and buy insurance when your house is on fire? No, you don't do that. I mean, you buy insurance first. We want to encourage this by having the date sooner. This, they'll give them eight months. If they don't have their act together in eight months...I mean, I was a county board member. I wouldn't do anything to hurt a county board, don't get me wrong, I absolutely wouldn't, unless I did...was doing the right thing and they're doing the wrong thing, of course. But we need to encourage it. I don't know how many more times I can say that. Senator John Hilgert is laughing at me over here because I said it three times now. But encourage it by moving the date up. You can't have your cake and eat it too. They've had time. We all in this body understand what's happening, and I won't use the words that's making this happen. Zoning needs to happen. Buffalo County, the county I'm from, we didn't do it right away. I tried to encourage that before. We did not do it and I'll admit that, and I tried to get it done years and years ago, but they are currently working on it. If the word hasn't gotten out to the counties by now, they're in trouble. If the word hasn't gotten out to the county boards now, I mean, they're...I mean, they're in trouble and they're going to have eight more months. How much more can we say here?
